RESORT AND SPA**

GRAND TRAVERSE RESORT AND SPA DRONE POLICY

Out concern for the safety and privacy of our guests, employees, and homeowners, we require all drone operators to contact Grand Traverse Resort and Spa to obtain permission to use a drone on property.

The Resort prohibits the operation or use of drones—including recreational users and hobbyists—without the prior written authorization from Resort. This includes drones used for filming or videotaping, as well as any drone use by media or journalists. This prohibition extends to any drones launched or operated from within Resort grounds, as well as drones launched from private property.

All drones must be registered with the FAA, and drone use must follow both FAA and State of Michigan guidelines. For more information, visit <https://www.faa.gov/uas> and www.legislature.mi.gov/documents/2015-2016/publicact/pdf/2016-PA-0436.pdf.

Any violation of this policy may involve eviction from your accommodations, as well as confiscating of any drone equipment, and may subject violators to any damages, including, but not limited to, damages for violations of privacy and/or physical or personal injuries or property damage, as well as regulatory fines and legal fees.

To obtain permission for drone use, please contact the Public Relations Manager at publicrelations@gtresort.com. If you are a meeting planner, please contact your Resort sales or conference services lead.
